

105个医保目录新药落地全国1万多家定点医药机构-新华网

Key Points

- 105 new drugs from the medical insurance catalog are now available in over 10,000 designated medical institutions across the country.
- These drugs include negotiated and commercial insurance innovative drugs.
- The National Medical Insurance Administration is working to ensure the availability and accessibility of these drugs to insured individuals.
- Information on the equipped institutions is available on the official website and the National Medical Insurance Service Platform App.
- Efforts are being made to monitor and equip more designated medical institutions with the newly added drugs.

Main Insight

The implementation of 105 new drugs in over 10,000 designated medical institutions nationwide aims to enhance access to essential medications for insured individuals. The focus is on ensuring that these drugs are readily available and that insured persons can benefit from the updated medical insurance catalog.

- **Stay informed:** Regularly check the official website and the National Medical Insurance Service Platform App for updates on the equipped institutions.
- **Advocate for accessibility:** Encourage the equitable distribution of new drugs in all designated medical institutions

to improve healthcare access for all insured individuals.

- Support monitoring efforts: Help monitor the availability of negotiated drugs in designated medical institutions to safeguard the medication rights and interests of insured persons.
