

# 105个医保目录新药落地全国1万多家定点医药机构-新华网

---

## Key Points

- 105 new drugs in the medical insurance catalog implemented in over 10,000 designated medical institutions nationwide.
- 88 of the 105 newly added negotiated drugs have information on equipped institutions.
- 19 commercial insurance innovative drugs were equipped in 965 designated medical institutions.
- The National Medical Insurance Administration organized companies to submit lists of institutions equipped with newly negotiated drugs.
- Data on equipped institutions released on official websites and platforms for insured persons to access.

## Main Insight

*The implementation of 105 new drugs in the medical insurance catalog across a vast network of designated medical institutions signifies a significant step towards providing access to a wider range of medications for the public. The availability of information on equipped institutions ensures transparency and aids insured persons in locating the necessary drugs.*

- 1. Stay informed:** Regularly check the official website of the National Medical Insurance Administration for updates on newly implemented drugs.
- 2. Advocate for transparency:** Encourage companies to

provide detailed information on equipped institutions to facilitate public access to essential medications.

**3. Support medication rights: Monitor and report any discrepancies in the availability of negotiated drugs to ensure the medication rights and interests of insured persons are safeguarded.**
